The Jackson DB Floor Plan

- 3668
Square Feet
- 4
Bedrooms
- 3.5
Bathrooms
- 3
Car Garage

One of our most spacious home plans, the Jackson Daylight Basement (DB) has it all and then some. Its 3,668 square feet of living space includes up to 5 bedrooms, 3.5 baths and a finished daylight basement that adds even more flexible space to meet your lifestyle needs.

The Jackson DB features 5 exterior architectural styles rich in detail and character. A 3-car garage offers ample parking and storage space. An inviting covered porch with sidelight brings in abundant natural light into the home's dedicated entryway. A short walk down the hall brings you to the open concept great room that adjoins a kitchen and dining area that's full of light, with high ceilings and large windows. Let your eye travel further to the optional sliding glass doors that open to an included covered patio that extends your home's living space into the outdoors.

The kitchen is where memories are made, and the Jackson DB is roomy enough for the entire family. An oversized center island and lots of counter space make everyday meals, snacks and large gatherings easy. A walk-in pantry provides plenty of storage for food, small appliances and other essentials. Off the kitchen and toward the garage, an efficient entryway with a bench and closet keeps shoes and personal items organized. A neighboring powder room provides family and guests with a bathroom option on the main level.

Upstairs, a grand primary suite provides an opportunity to retreat and relax after a long day. The adjoining full bath offers a complete spa experience right at home. A soaking tub is the room's centerpiece, situated between dual vanities. A separate shower is situated on the opposite side, as well as a large walk-in closet. A convenient laundry room is also upstairs, as well as bedrooms 2 and 3 share a full bath. Transform the small loft into a small study, lounge space or kids' homework area. The space features a bedroom option for growing families or for guests.

Back downstairs and down another set of stairs, a finished daylight basement provides even more flexible living space. Enjoy a game night and give the kids a dedicated rec room in a spacious media room. A bedroom and full bath offer a private area for an older child, extended family or guests. Also downstairs, a dedicated home office is situated away from home's main living areas for quiet and privacy.

The Jackson DB is an incredible home that's designed for growth and flexibility. And when you build with Pacific Lifestyle Homes, you have even more opportunities to personalize your home to suit your style and preferences. Personalize your Jackson DB home with the help of our experienced designers at our Design Studio —one of the largest in the Northwest offering timeless and on-trend flooring, cabinets, countertop, fixtures, and much more from leading manufacturers. During pre-construction, you'll also be able to select from a collection of structural options to match your lifestyle and preferences for everyday living.

Jackson DB's construction options include:

- Open stair rail
- Fireplace
- 6' or 9' sliding glass door
- Extended deck
- Extended kitchen island

- Window in dining area
- Cabinets in dining area
- Double oven
- Barn door in primary bath
- Mud set custom shower
- Shelving in walk-in closet
- Sink and cabinet in laundry room
- Bedroom at loft
- Extended covered patio at basement level

Comfortably luxurious and well-appointed, the Jackson DB is meticulously designed for Northwest families. Learn more about the Jackson DB plan by contacting us today.
